ABOUT ME

I am a results-driven Frontend Developer with a passion for creating seamless, high-performance user experiences. With 4 years of professional experience, I thrive in fast-paced, agile environments, translating complex ideas into efficient, scalable, and visually appealing web applications.

Beyond just writing code, I focus on problem-solving, performance optimization, and delivering intuitive digital solutions. I love tackling challenges, refining user interactions, and ensuring that every project meets the highest standards of quality and usability.

Committed to continuous learning, I stay ahead of industry trends and best practices, always seeking innovative ways to elevate frontend development. I am eager to contribute my expertise and creativity to teams that prioritize growth, collaboration, and cutting-edge technology.

TECHNICAL EXPERTISE

Frontend Development:

HTML, CSS, Bootstrap, Material UI, Tailwind, Radix UI, shadcn, SCSS

JavaScript Frameworks & Libraries:

React, Next.js, React Native, Redux, Context API, Zustand, KendoReact

Forms & Validation:

Formik, react-hook-form, Yup

Programming:

JavaScript (ES6+), Typescript, NodeJs

API

RESTful API, GraphQL

Tools & Practices:

Version Control (Git/GitHub), JWT Authentication, Debugging

Testing

Jest, Enzyme, Vitest, Lighthouse , Playwright (End-to-End Testing)

WORK EXPERIENCE

Senior Front-End Web Developer

ElitX Technologies [01/10/2020 – Current]

City: Abbottabad | **Country:** Pakistan

- Developed responsive web applications using ReactJS and GraphQL for efficient data retrieval.
- Designed visually appealing and user-friendly interfaces using Material-UI, Tailwind CSS, Radix UI, Shadcn.
- Integrated REST APIs to facilitate seamless communication with backend services.
- Implemented JWT token authentication to ensure security protocols.
- Managed application state using Redux, Redux Toolkit, and Redux Thunk, Zustand for efficient data flow.
- Leveraged Context API for global state management within React applications.
- Collaborated on GitHub, participating in code reviews and version control processes.
- Wrote clean, efficient JavaScript code, optimizing algorithms using Big-O notation.

- Worked on performance optimization and debugging to enhance the user experience.
- Contributed to cutting-edge web applications and stayed updated on the latest web technologies.
- Integrated KendoReact components (Grids, Charts, DatePickers, etc.) to improve UI efficiency and consistency.
- Implemented KendoReact PDF functionalities for exporting and managing data-driven reports.
- Customized KendoReact themes to match design specifications and optimize user experience.

Junior Front-End Web Developer
I-intelllect [01/07/2019 – 09/2020]

City: Abbottabad | **Country:** Pakistan

- Gained hands-on experience in a React Native development environment.
- Built foundational skills in React, HTML, CSS, and JavaScript.
- Assisted in building basic mobile applications using React Native.
- Collaborated with senior developers to learn best practices and coding standards.
- Participated in all stages of the development lifecycle, from design to testing and deployment.
- Tackled real-world development issues, improving problem-solving skills.
- Demonstrated a strong commitment to learning and adapting to new technologies.

Front-End Web Developer (Intern)
Kiwi Website Designs [01/09/2018 – 31/05/2019]

City: Islamabad | **Country:** Pakistan

- Built and customized websites using WordPress and Elementor page builder.
- Assisted in creating custom WordPress themes tailored to client requirements.
- Learned the basics of WordPress development, including template files and functions.
- Collaborated with the team to ensure pixel-perfect website designs aligned with client expectations.
- Set up and maintained WordPress websites, including plugin installations and configurations.
- Gained practical experience in content management, hosting, and domain management.
- Showed enthusiasm for exploring new aspects of web development and design.

EDUCATION AND TRAINING

BS Computer Science
Comsats institute of information and technology [2014 – 2017]

Address: 22010 Abbottabd (Pakistan)

ACCA
School of business and management [2011 – 2013]

City: Abbottabd | **Country:** Pakistan

HSSC
Pine Hills public school and college abbottabad [2010 – 2011]

City: Abbottabad | **Country:** Pakistan

PROJECTS

Internship Experience: PC Machinery Website Management
During my internship at **PC Machinery** (https://pcmachinery.co.nz/), I worked on managing and updating their **WordPress-based** website.
My responsibilities included:

Product Management:
- Adding and updating product listings with accurate details, images, and pricing.

Website Customization:
- Implementing minor tweaks and adjustments based on client requirements.

Client Requests Handling:
- Making modifications and resolving minor issues to enhance user experience.

This experience strengthened my skills in **WordPress management**, **content updates**, and understanding client-based website modifications.

Freelance Project: Car Wash Company Website (UAE)
I designed and developed a **static WordPress website** for **Al Ayaan Car Wash** (https://alayaancarwash.com/) using **WordPress and Elementor**.

This project involved:

Website Development:
- Built a professional and visually appealing website to showcase services.

Hosting & Domain Setup:
- Managed domain registration and hosting configuration.

SEO Optimization:
- Implemented SEO strategies to improve search visibility and rank the website on Google.

Performance & User Experience:
- Ensured fast loading times, mobile responsiveness, and an intuitive layout.

This project enhanced my expertise in **WordPress development, Elementor customization, SEO optimization, and website deployment** for businesses.

Professional Experience: React & Frontend Development
I contributed to multiple **React and Next.js projects**, delivering high-quality, scalable, and efficient web applications. Due to company and client policies, I am unable to disclose specific project details.

My work involved:

Frontend Development:
- Built responsive and dynamic UIs using **React.js, Next.js, Tailwind CSS, Radix UI, ShadCN and KendoReact**.
- Leveraged **KendoReact UI components** (Grids, Charts, DatePickers, etc.) for enhanced functionality and user experience.

State Management:
- Implemented efficient state handling using **Redux, Redux Toolkit, Zustand, and Context API**.

API Integration:
- Worked extensively with **RESTful APIs**, ensuring seamless data flow and performance optimization.

Testing & Quality Assurance:
- Ensured code reliability and maintainability through **Jest, Enzyme, and Playwright (E2E testing)**.

PDF & Document Handling:
- Utilized **KendoReact PDF Export** for **generating, customizing, and downloading PDFs**.
- Implemented **KendoReact document processing features** to enhance reporting capabilities.

This experience strengthened my ability to develop scalable web applications while maintaining **code quality, performance, and user experience**.

Final Year Project: District Football Association Data Management System
For my Final Year Project, I developed a **District Football Association Data Management System**, designed to streamline and digitalize player record-keeping. Built using **HTML, CSS, and SQL** for database management, this system ensures efficient data handling for football associations.

Key Features & Functionality:

Role-Based Access Control:
- Different user roles including **Admin, President, General Manager, and Players** with specific permissions.

Player Record Management:
- Players can access and review their own data, while higher officials can add and update player records.

Approval System:
- Any new entries or updates made by officials require **admin approval** before becoming part of the official records.

User-Friendly Interface:
- Designed with a clean and responsive interface for seamless navigation and data retrieval.

This project aimed to enhance transparency and efficiency in managing player records while ensuring data security and controlled access for different stakeholders.

HOBBIES AND INTERESTS

Professional Interest
- Staying updated with the latest frontend technologies and frameworks
- Building interactive and efficient user interfaces
- Exploring innovative design trends and development techniques

Hobbies
- Cricket
- Video Editing
- Video Gamming
